<tr>
<th>What was the industrial revolution?</th>
<th>rapid industrial growth that began in England during the mid-18th c. and spread to other countries, including the United States (2 phases 1750 - 1870 and 1870 - 1960)</th>
</tr>
</thead>
</table>
| How would we characterize the industrial revolution? | machines invented, which replaced human labor  
new energy sources: water, steam, electricity, oil (gas, kerosene)  
increased use of metals and minerals (coal, aluminum, copper, iron, etc.)  
growth of factories  
mass production of manufactured goods |
| What were the effects of the industrial revolution? | rural to urban migration (due to increased efficiency in agriculture), development of capitalism, growth of new classes, 10-12 hr work days, child labor, living conditions |

**Summary:**

Write a summary of the main ideas in your own words.
