World War II Research and Presentation Project

Due by 8a.m. on May 15th

Research Question

You are to create a research question for a World War II topic. This research question should drive your project in terms of both the written research paper and the Google presentation made in class.

Research Paper

The research paper is to be constructed in the following way:

- The paper is to be completed in MLA format with a title page.
- You must have at least six cited sources in MLA format.
- Two sources must be primary sources.
- Two sources must be from books (rather than internet sources).
- The paper is to be 3-5 pages in length.
- Honors Social Studies students are required to write a 5-7 page paper.

*** Important: A rough draft will NOT be required. It is imperative that you create a schedule for yourself so that you are not writing your paper at the last moment. ***

*** PLAGIARISM WILL NOT BE TOLERATED – Make sure that you correctly cite your sources. ***

Google Presentation

This is your final presentation of the year and should be completed after you have completed most of your research and writing. You will be given requirements for the presentation on 5/1. If you complete your paper prior to 5/1, I will give the requirements to you.

Grading:

Your research paper will be worth 70 points.

Your research paper will be graded on format, grammar, content, analysis, and accuracy of historical events. (see rubric)

Please use the coming weeks wisely. If you need to meet with Ms. Gibson, please schedule an appointment ahead of time. This includes advisory time.
